

G C A U
G A G

The image features a stylized representation of a DNA sequence. The top row consists of four large, bold letters: a yellow 'G', a blue 'C', a green 'A', and a red 'U'. Below the 'C' and 'A' are two smaller letters: a green 'A' and a yellow 'G'. At the very bottom, there are three horizontal bars: a red bar under the 'G', a yellow bar under the 'A', and a red bar under the 'G'. The overall design is clean and uses a primary color palette.
